

I really enjoy the music played on K-Love. I like the fact that it is "family-friendly" and that I do not have to worry about what my children hear on the radio, as I know many in my community also like. If this station were to be taken off of the air due to LPFM, I would not listen to the radio anymore, as I am sure many of my friends in my community would also, because there is nothing else we want to listen to.
